

Anti Cross Dry Laundry Detergent Sheets Color Absorbing Antibacterial And Anti Mite

Our Product Introduction

Basic Information

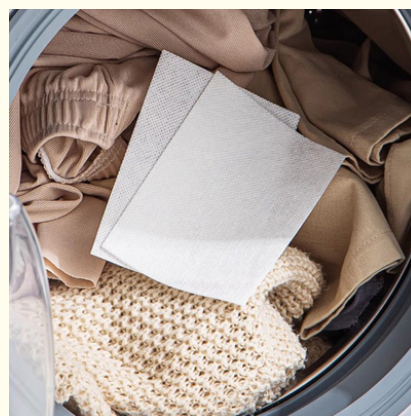

- Place of Origin: CHINA
- Brand Name: nuomi
- Certification: CE
- Model Number: Laundry tablets
- Minimum Order Quantity: 100box
- Price: 1USD
- Packaging Details: carton
- Delivery Time: 7-15days
- Payment Terms: T/T
- Supply Ability: lakh

Reactive dyes can be done
with just one cloth

Product Specification

- Category: Laundry Tablets
- Specification: 30pcs
- Effect: Prevent Staining, Absorb Color And Protect Color
- Color: White
- Material: Surfactant
- Active Substance Content: 65%-70%
- Fragrance Type: Customizable
- Weight: 15g/pc
- Highlight: anti cross dry laundry detergent sheets,
dry laundry detergent sheets color absorbing,
antibacterial detergent laundry sheets

Product Description

How to Use the Anti-Color Bleeding Laundry Sheet:

Step 1: Preparation

Before starting the laundry, sort your clothes into similar colors or fabric types, as you usually would. However, with the anti-color bleeding laundry sheet, you can also safely mix colors that you would normally wash separately.

Determine the number of laundry sheets you need based on the size and color intensity of your load. Generally, one to two sheets are enough for a regular-sized load.

Step 2: Adding the Sheets

Place the desired number of anti-color bleeding laundry sheets into the washing machine, either in the drum or in the detergent dispenser if your machine has one.

Ensure that the sheets are not blocked or covered by other items in the drum, so they can freely float and absorb color particles.

Step 3: Loading Clothes

Add your sorted clothes to the washing machine, ensuring that they are not tangled or jammed to allow the sheets to move freely.

If you have any particularly bright or brightly colored items, place them on top of or near the laundry sheets to maximize their effectiveness.

Step 4: Adding Detergent

Add your regular amount of laundry detergent as per the instructions on the package.

Remember, the anti-color bleeding sheets do not replace detergent; they work in conjunction with it to provide a more comprehensive cleaning solution.

Step 5: Running the Wash Cycle

Set your washing machine to the desired wash cycle and temperature based on the fabric and dirtiness of your clothes.

As the wash cycle progresses, the laundry sheets will start to absorb loose dyes and color particles shed by the colored clothes.

Step 6: Removal and Inspection

Once the wash cycle is complete, remove your clothes from the washing machine.

Inspect the laundry sheets. You may notice that they have turned a darker color, indicating that they have successfully absorbed color particles.

Discard the used laundry sheets as they are designed for single-use.

Step 7: Drying or Air-Drying

Proceed with drying your clothes as usual, either in a dryer or by air-drying.

Remember to separate dark and light colors if you are air-drying to prevent any residual color bleeding.

Product name	laundry tablets
Brand	OEM
Specification	30 pcs /50 pcs per box
Function	Low viscosity and instant Dissolve
Material	Glycerin Essence and Active surfactants
Active substance content	80%-85%
Size	7*11cm
Package	30 pcs/ bag
Weight	15g/pc
Suitable	By hand & By machine

Anti-cross-dyeing laundry color-absorbing sheets

Safe mixing of dark and light colors

Shuffle worry-free

Refuse to dye cross-color

REFUSE TO DYE AND CROSS COLOR

What is a color absorber and what is its principle?

The color absorbing film is a new type of clothing color master film that can absorb and lock the free color ions released in the water when colored clothes are washed, thereby avoiding cross-staining.

random shuffling
