## Product Description

Powerful and quick-dissolving dirt-cleaning dishwashing block specially designed for dishwashers

The materials used in dishwasher detergent tablets typically include the following components:

### Sodium Carbonate (Soda Ash):

Commonly known as soda ash, this is a key ingredient in dishwasher detergent tablets. It helps increase the alkalinity of the wash solution, enhancing the cleaning performance.

### Sodium Citrate:

Also known as citric acid sodium salt, it is a natural component often found in lemon juice. In dishwasher detergent tablets, it acts as a buffering agent to help maintain the pH stability of the wash solution.

### Sodium Percarbonate:

This is the core cleaning agent in dishwasher detergent tablets. It decomposes to release oxygen, which helps break down stains and kill bacteria. While it can be harsh on skin when dissolved, its usage in dishwasher tablets poses minimal risk.

### Enzymes:

These are substances extracted from biological sources and widely used in food processing. In dishwasher detergent tablets, enzymes help break down food residues, enhancing the cleaning effect.

### Surfactants (Surface Active Agents):

Surfactants lower the surface tension of the wash solution and alter its wetting properties, further improving cleaning performance. They are also commonly found in laundry detergents and soaps.

### Other Additives:

Dishwasher detergent tablets may also contain other additives such as water softeners (e.g., dishwasher salt) and rinse aids (or brighteners/shining agents) that help soften water, reduce water spots, and improve the drying and shining effect on dishes.

### Water-Soluble Film Packaging:

The outer layer of dishwasher detergent tablets is often packaged in a water-soluble plastic film. This film does not need to be removed before use; it dissolves quickly when exposed to water, releasing the tablet into the dishwasher.

Product Name	Dishwasher tablets
Shape	Square round
Size	Customized Size
Service	OEM ODM Private Label
effect	Clean tableware and remove grease stains
net weight	20g
Box quantity	Customized

Dishwasher Tablets
